Overview

Aim of this document is to guide you through the installation, updating and deleting of ZENworks Mobile Workspace iOS application.

Pre-requirements

1. You must have a device with iOS 10.0 or higher (high-end device are recommended)
2. You should have an high speed internet connection through WiFi or 3G connection
3. Your device must not be jailbroken

App Store Installation

Start the App Store and search for ZENworks Mobile Workspace.

Then touch **GET** or the cloud to start the download and the installation process.

When the download is completed, the ZENworks Mobile Workspace application should be available in your SpringBoard.

In-House installation

Go to web distribution server

The screenshot shows a mobile browser interface. At the top, the status bar displays 'Sunrise', signal strength, Wi-Fi, time '11:28', Bluetooth, and 90% battery. The address bar shows 'microfocus.sysmosoft.com' with a lock icon and a refresh button. Below the address bar is a blue header with the ZENworks Workspace logo and text. The main content area has a heading 'Please, enter your credentials:' followed by two input fields: 'Enter your username' and 'Enter your password'. Below these fields is a large dark blue button labeled 'Login'. At the bottom of the page, there is a copyright notice: 'Copyright © 2017 Micro Focus Software Inc. All rights reserved. Powered by (Sysmosoft SA)'. The bottom of the screen shows a standard iOS navigation bar with back, forward, share, book, and tabs icons.

With your iOS device, open your browser and go the address provided by your company.

Web server address example

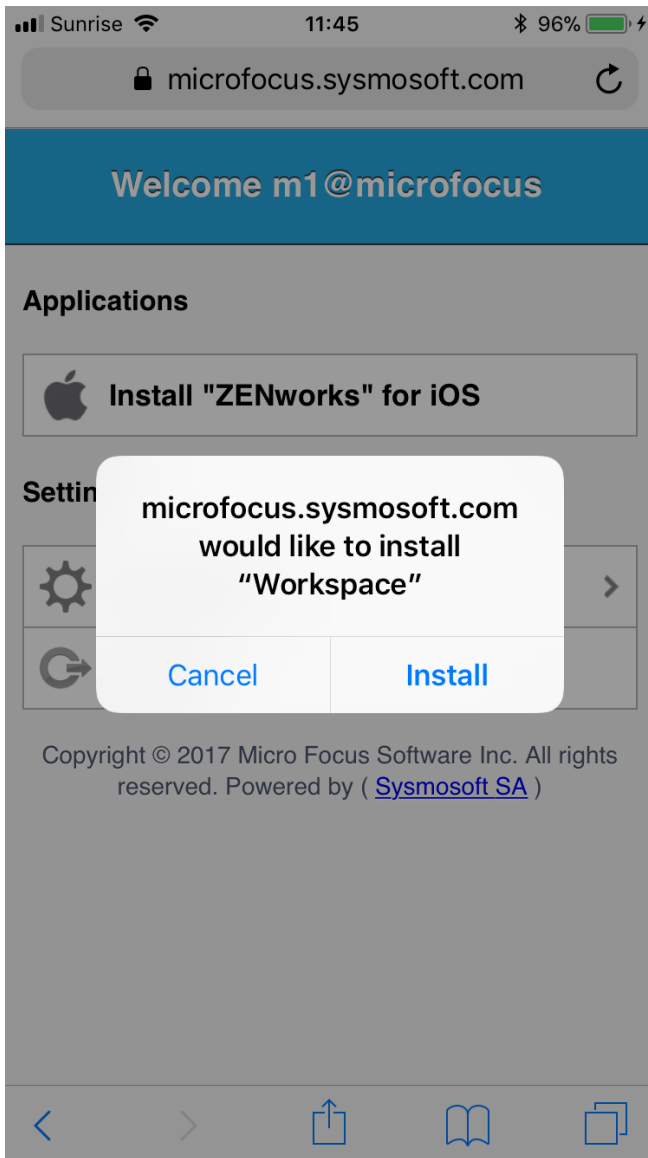

`https://mobile.example.com/sense/install/`

You will be presented with login page. Enter your credentials and touch **Login**.

If, after touching **Login**, you are going back to the same page, ensure cookies are accepted.

Download the iOS application

After login, you will be offered to download all available applications.

Touch **Install** "ZENworks Mobile Workspace" for iOS.

You will be asked to confirm that you want to download the app.

Touch **Install** to confirm that you want to download the application.

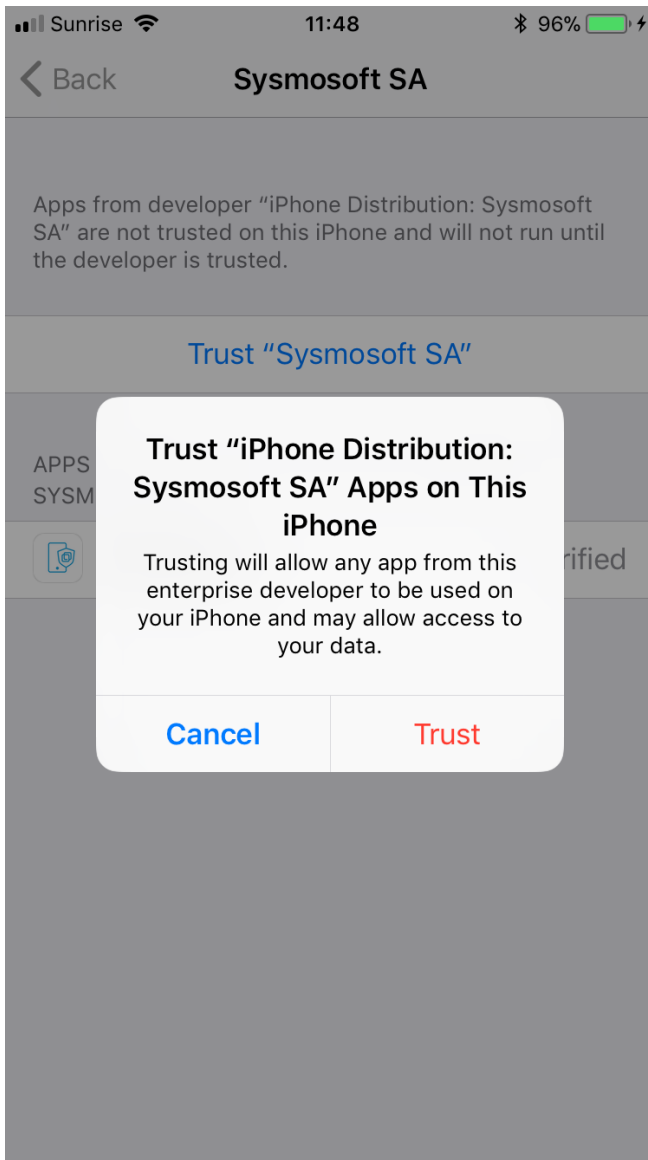

When the download is completed, the ZENworks Mobile Workspace application should be available in your SpringBoard.

Launch the application

The first time you launch the ZENworks Mobile Workspace application, you need to trust manually the enterprise certificate.

Trust the enterprise certificate

Trust the enterprise certificate:

1. Open **Settings** → **General** → **Profiles & Device Management** → **Sysmosoft SA**
2. Touch **Trust "Sysmosoft SA"**
3. Touch **Trust**

Now your able to launch the ZENworks Mobile Workspace application.
